

## Residential Millwork Sills

- Sills for use with standard  $4\frac{5}{8}$ " jamb width with easy snap-on extension for jambs as wide as  $8\frac{3}{4}$ "
- For fabrication options for adjustable or fixed substrate sills, such as honing or sidelite mullion notching, contact Pemko Customer Service
- Residential Sills are designed specifically for the pre-hung door market. They are furnished un-drilled and without screws or nails
- Adjustable up to  $\frac{1}{4}$ " to compensate for uneven door bottoms and sub-sill level changes. Two-part zinc plated steel stud shoulder screw joins a long-barreled, zinc plated steel T-nut for superior stability and long-lasting reliability
- PemkoPrene (PK) moisture barrier prevents water intrusion. Design of PemkoPrene (PK) bulb configuration keeps constant pressure between aluminum cap and aluminum extrusion at any level of adjustment (bulb shown compressed). Replacement insert is **PK74BL**
- Available in standard sizes 32.5", 36.5", and 73.75"

## Adjustable Aluminum Top Sills

94518\_
